

Circuit Joining Procedures - "Fenton Radio" A/G 120.71

**AVOID ALL VILLAGES IN THE FENTON LOCAL AREA**

Initiate join at 1500' to enter the fixed-wing circuit at 1000' or as appropriate on final.

All fixed-wing circuits to the north of the runway at 1000'.

For bad weather circuit at 500' this must be stated in the climb out call.

Fixed-wing circuit pattern to be between the old runway 16 threshold and the south of Ulleskelf village, which is not to be overflown.

Rotary-wing circuits are flown to the south of the runway at 700'. To be flown to stay well north of the Sherburn ATZ.

**NO OVERHEAD JOINS** due proximity of Sherburn.
